Flex Display

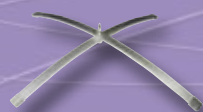

FLEX-display™

FLEX-display is far more than just a banner stand. It differs because it is very lightweight, compact, modular, high quality, adaptable, easy to carry, assemble, adapt and store ... the list goes on. FLEX-display comprises of a range of components which may be used together to fulfil a variety of display solutions.

The general flexibility of the system makes it possible to choose the width and height of the banner stands, make them double sided, add lights, add literature dispensers, join displays together, use different graphics for different events. Change the graphics easily for the next campaign, wall or ceiling mount banners, use ultra portable or semi-permanent bases and even add wheels to make the displays movable.

Assembly less than one minute
